

October 27, 2021

Dear valued Appcast clients,

I'm very excited to announce that effective November 1, 2021, we are joining forces with My IT Guy Corp., a long running MSP based out of Kitchener. I will be joining long-time colleague Adam Smith as My IT Guy's CIO with a mandate to lead their vCIO programme.

We'll be reaching out over the coming weeks to arrange a meeting to introduce the new team, and to discuss changes and benefits you can expect as a result of this move.

Thank-you for your continued and valued business over the past several years. It has been a privilege to be your IT guy, and it will continue to be a great pleasure to do so as part of a greater team - at My IT Guy!

Sincerely,

Mike Diamond
